

NVQ in ...

Plant Operation with Forklift Truck

A **work based qualification** designed for people who want to work in a warehouse environment in all sectors of industry and commerce.

During your training you will have the opportunity to learn, develop and practice the skills required to make an effective contribution to a warehouse environment.

Your NVQ will consist of the following:

NVQ Plant Operation with Forklift Truck L2

The **NVQ** is made up of four mandatory units. These mandatory units cover the skills essential to your Forklift Truck Operating role.

Mandatory units include:

Contribute to efficient and effective working relationships
Contribute to Health and Safety in the workplace
Operate plant and machinery to performance requirements
Lift.

Transfer and position loads

Initial Assessment Advice and Guidance

We will visit you in your workplace to discuss your learning needs with you. We will find out your existing level of competence and plan a suitable training programme with you.

Assessment

Your induction and initial or refresher training on the forklift takes place in a warehouse environment at the Derby training centre with Capital Vocational Training. *Then your personal tutor will deliver your training one to one in your workplace visiting you for half day sessions in order to assess your competence in a work setting. These visits will take place over a two month period.

*Alternatively, we can arrange for the training to take place in your workplace to suit your business needs.

Interested?

If you are employed, speak to your supervisor and contact Acorn on 01773 747 377 to arrange for us to come and visit you and your supervisor at work.

How much will it cost?

This course is fully funded through Train to Gain subject to eligibility; however funded places are limited for those with 5 GCSE's, their equivalent or above.
